

## National Japanese Canadian Digitization Strategy

The Nikkei National Museum & Cultural Centre and the Japanese Canadian Cultural Centre are excited to embark on the development of the *National Japanese Canadian Digitization Strategy*. This strategic guide will help lead future digitization projects.

The NNMCC and JCCC are offering a **short survey** to help direct the strategy. This survey seeks to understand what points of Japanese Canadian history and heritage are important to the community.

The survey can be accessed online at:

<https://centre.nikkeiplace.org/research/national-japanese-canadian-digitization-strategy/>

In addition to this survey we are pleased to host an online community consultation session via zoom. Zoom link available at the link above.

The next session will be:

**Saturday May 14th 11:00 am PST / 2:00 pm EST**

**For more information on the National Japanese Canadian Digitization Strategy, please contact:**
