1. Invitation

The Village of New Denver (the “Village”) invites proposals from qualified proponents for the dismantling, removal, and disposal of an existing wood stave water reservoir located within the Village.

The Village is seeking proponents with appropriate experience, equipment, and qualifications to safely complete the work in accordance with applicable safety and environmental requirements.

2. Scope of Work (Summary)

The successful proponent shall provide all labour, equipment, supervision, transportation, and materials necessary to complete the following:

Reservoir Removal

- Dismantle and remove the existing wood stave water reservoir.
- Remove associated structural components and demolition debris.

Retained Village Asset – Metal Staircase

- A metal staircase attached to the exterior of the reservoir is a retained Village asset.
- The staircase must be carefully removed, using reasonable care to minimize damage, and placed on site at a location directed by the Village Representative.
- The staircase remains Village property and must not be disposed of or removed from Village property.

Disposal and Site Clean-Up

- Remove all non-retained materials from the site.
- Dispose of or recycle materials in accordance with applicable regulations.
- Leave the work area clean and safe upon completion.

3. Ownership of Materials and Salvage

Unless otherwise specified, removed reservoir materials become the responsibility of the successful proponent for disposal or recycling. Components identified by the Village as retained assets, including the exterior metal staircase, remain Village property and are not subject to salvage rights.
